

LAIBA SAEED

BUSINESS DEVELOPMENT PROFESSIONAL

Lahore, Pakistan | itx.laiba.saeed@gmail.com | www.linkedin.com/in/laiba-saeed-831002267

PROFESSIONAL SUMMARY

Driven Business Development professional with a strong track record of building client relationships, generating qualified leads, and growing revenue through strategic outreach and market positioning. Experienced in LinkedIn-based prospecting, ideal customer profile (ICP) development, and end-to-end account management across freelance platforms including Upwork and Fiverr. Combines analytical and strategic thinking with an entrepreneurial mindset to identify growth opportunities and convert them into measurable business results.

PROFESSIONAL EXPERIENCE

Business Development

Apr 2026 – Present

Startups Association — Lahore, Pakistan

- Supported business development efforts by identifying and researching prospective clients and partners, contributing to the association's growth pipeline.
- Helped build and refine Ideal Customer Profiles (ICPs) to target high-value prospects and improve outreach quality.
- Assisted in managing client relationships from initial contact through onboarding, gaining hands-on exposure to the full client lifecycle.
- Contributed to LinkedIn-based prospecting and networking efforts to generate qualified leads.
- Applied strategic and analytical thinking to support market research and inform outreach decisions.

Freelance Business Owner — Web Design & Client Services

Apr 2023 – Apr 2024

Self-Employed (Upwork & Fiverr) — Lahore, Pakistan

- Founded and scaled an independent web design business, managing the full client lifecycle from lead generation to contract negotiation and delivery on Upwork and Fiverr.
- Consulted directly with clients to translate business requirements into tailored digital solutions, strengthening retention and referral business.
- Designed and delivered responsive, user-focused websites, consistently meeting deadlines and exceeding client expectations.
- Developed strong negotiation, pricing, and account management skills through direct ownership of client acquisition and revenue generation.

EDUCATION

Bachelor of Software Engineering

Nov 2022 – Aug 2026

University of Management and Technology (UMT) — Lahore, Pakistan
